

HYDRA HEAD RECORDS PRESENTS

CHEF'S LIST

RANDOM STUFF FROM AROUND THE OFFICE

HYDRA HEAD RECORDS PRESENTS

DIRECT FROM HYDRA HEADQUARTERS

Last week we were all just sitting around doing nothing like we usually do here at Hydra Headquarters...just talking about how cool our bands are, about how cool the label is, about how funny our youtube clips are, about how we need a new ad campaign, about how fat Chel Vanin has got, about how hard it is to sell records, about how we need to improve communication, about how we need a new website, about how credit lines are the devil, about how extending terms are the devil's devil, about how we need health insurance, about how many upcoming releases we have, about how fucking broke we always are, about how badly we need to get more records into production, etc...and then it dawned on us, 'Hey, lets clean out the fucking closets and put the lot of it on sale'. No one actually said that quote exactly, but you get the idea....its December, its the end of the year, the holidays are around the corner and we are all in a goddamn recession. Argh. its all rather depressing...until, that is, you have a look-see at this here list of dynamite goods we've been sitting on...some of it for YEARS. Shit has been so packed away in our storage rooms that we forgot we had it. James even found a copy of Neurosis "Sovereign" on red vinyl (which he kept) and a copy of Cable's "Gutter Queen" (also on red vinyl, also which he kept).

We've got, literally, BOXES of merch that are leftovers from various pre-orders over the years...we've got stuff that dates back to 2004 on the merch front and records that date back even further (we think). There is everything from underwear and pillowcases to knives and mugs, from posters and vinyl to comics and CDs...and of course there are plenty of shirts, longsleeves, zip ups and hoodies to have a crack at as well. We have very very limited stock on much of this stuff, so its first come first serve*...hopefully you'll find something you like.

This isn't a comprehensive list of HHR stuff, but it is a damn good idea of what you could get if showed up someday on our doorstep with cash in hand. Its actually also the same stuff you'd find if you were to show up during our office hours with a big empty bag and tried to steal thousands of dollars in records like some asshole did a few weeks ago. He's in jail now though and we're all carrying guns, so don't even THINK about it.

We've put some 'bundle' options together for you, mostly on the vinyl tip. Its pretty much a way for the obsessed collector types to get multiple copies of some recent vinyl at a discounted rate....so instead of buying one of each color of the new Clouds LP +12" for \$80, you can get all 4 colors for \$60...we put these types of 'bundles' together for releases from Clouds, (the) Melvins, Pelican, Cave In, Daughters, Austerity Program, The Gersch, Torche, Tusk, Helms Alee, Botch and Zozobra.

For the true diehards, we've got some things that have not yet been readily available...and considering how few we have of them we're sure they never will become all too readily available.. There is a black vinyl version of the Melvins "A Senile Animal" deluxe 4xLP*, something we hadn't had available before. There is a Cave In cassette of two unreleased tracks that was available from the band during their fall 2005 tour. We've got an exclusive new shirt design from Dead Whale (from the artist formerly known as Ironlung). There's a bunch of posters available, like the signed and numbered Tom Neely/Aaron Turner print made for our SXSW 2008 show. We've got two different poster prints that Faith from Everlovely Lightningheart (aka Sir Lancelot Lightning Rod)/Mamiiffer dropped off a ways back...she's at the office like everyday this week so maybe we'll even get her to sign one (although we suspect she thinks that cheesy or something). Mark dug up a stash of Japanese CD's he had stored in his office from over the years...they are pricey, but they are also hard to come buy and almost all of them have bonus tracks (and in some case bonus discs).

We've discounted pretty much everything as you'll see over the coming pages. All prices are valid while supplies last or through December 31st. Ordering guidelines are found under the "A Message From Chel" section. Please note that this list here is NOT related to our webstore found at www.hydraheadshop.com (which is another great place to spend money, by the way). These items and their accompanying rates are only available when ordered through Chel Vanin (chelvanin@hydrahead.com)* so, please, review his 'message' and contact him if you want anything.

Many thanks to you all for the continued support...even the whiners and haters out there (yes, we do know how to read message boards) who complain all the time about us but still buy our releases and support our bands...without you all we'd be just sitting around here doing next to nothing like we usually do...well, actually, that's not entirely true...we'd be thinking about how we're going to pretty much KILL IT IN 2009...there's so much to think about now that we think about it....there's that Torche 12"+DVD...there's that final Everlovely Lightningheart album out on deluxe 2xLP...there's that Bohren & Der Club of Gore "Dolores" LP...and how could we forget about the final Khanate album, "Clean Hands Go Foul" LP and CD/DVD...or that House of Low Culture "Hollywood Squalls" cassette...or the new Xasthur 2xLP and CD called "All Reflections Drained"...or maybe we'll have a new 12" from that band that was on RCA for a number of years...perhaps we'll even have a new Clouds 4 song 12"...maybe even that Harvey Milk 2xLP for "Life...The Best Game In Town"...come to think of it, maybe we'll have a long unavailable, and recently uncovered Harvey Milk 12" before long...but before that we'll have most certainly delivered the incredible third full length from Bergraven on 2xLP and CD...we'll do that right around the time we re-issue a limited edition version of Nihil's debut "Krach" for here in the states...there's Heresi's "Psalm 1" on ltd CD...and of course there is The VSS' LP+CD+DVD...the Champions of Sound 2x7" compilation featuring unreleased tracks from Pelican, Kayo Dot, Zozobra and Stove Bredsky...Kayo Dot's masterful Hydra Head debut "Blue Lambency Downward" on LP...and how about that new Big Business that Coady brought by the other day (with beer, only six of them)...or the Khylst LP with a bonus track...oh shit, and what about upcoming releases from Grey Machine, Jodis, Jesu, Oxbow, Hayaino Daisuki, and more? Stay tuned...

Much love, tight hugs and sloppy kisses from your friendly neighborhood Hydra Head staff...

oh, and also, THANK YOU.

* except for the Melvins on Black, talk to Chel (melvins@hydrahead.com) about that.

HYDRA HEAD RECORDS PRESENTS CHEL'S VINYL LIST

FRESH STUFF

CLOUDS

We Are Above You LP+12" : \$20

Vinyl edition of Clouds' latest offering, *We Are Above You*. Comes packaged in a super thick old style tip-on jacket with a bonus 12" of four unreleased cover songs. This puppy is so thick you could hammer nails with it; honestly its fucking heavy. Mark weighed it at 1 pound, 9 ounces. Available in 4 different sets of colors (Black/Black, White/White, Corn/Blue, and Yellow/Yellow).

ZOZOBRA

Bird of Prey lrd LP : \$15

This is a white label, black vinyl edition of 300 pieces, each with a silkscreened and hand-numbered foldover cover. As an added bonus I'll include a promo CD version of the album so you don't have to go searching for a free download of it online somewhere. BCD just sold through their stock so I suspect these will go quickly and once they are gone, they are gone.

PELICAN/THESE ARMS ARE SNAKES

Pink Mammoth/Gold Diggers Split 10" : \$14

Collaborative release featuring both bands on each track. One song from each band redone exclusively for this 10". Comes in a thick gatefold jacket and is available in 5 color sets; Black, Clear with Pink, Clear with Blue, Dark Blue, White. A limited silk-screen CD version is also available.

MESSAGE FROM CHEL

Please provide a zip code if within the US or the country we are shipping internationally when you are placing your order with Chelvanin@hydrahead.com

For the most part, the best 2 options for domestic shipping are USPS media mail, and UPS ground. I recommend UPS ground unless your order pretty small or you live in Alaska. If you are in dire need of your order to get to you fast, I'll look into the airmail options for you.

Media mail:

- Runs about 1/2 the cost of UPS
- Provides mediocre tracking (compared to UPS)
- Can take a long ass time to deliver, especially to the East coast (we're in LALA land, aka SoCal)
- Treat their packages rough, and not in a sexy way

UPS Ground:

- Runs about twice the cost of Media Mail
- Has good tracking system
- Takes about 1/2 the time to get to the East Coast
- Treat their packages slightly less roughly, still not sexy

I'm going to give an example of 1 package with the same contents shipped to a bunch of different places within the US and the price of shipping for each.

Lets say you ordered:

Clouds *We Are Above You* LP+12"

Zozobra *Birds of Prey* ltd LP

Pelican *The Fire in our Throats Will Beckon the Thaw* 2xLP

The total weight with packaging would be between 4-5 lbs (about 2kg)

Here's the cost and rough estimate on how long it'll take to get to you.

San Diego:

UPS ground - \$7.05 - 2 days

USPS media mail - \$3.80 - 3 days

Kansas City:

UPS ground - \$8.96 - 4 days

USPS media mail - \$3.80 - 6 days

Boston:

UPS ground - \$9.92 - 4 days

USPS media mail - \$3.80 - 8 days

International shipping is expensive, even to Canada or Mexico. You're probably aware of this though. UPS is pretty much out of the question, so the only two choices are USPS Priority Mail International and USPS First Class Mail International, and first class mail has to be 4lbs (1.8kg) or under. I highly recommend priority mail unless you're only buying 1 item and don't mind taking a risk.

USPS First Class International (2-3 weeks, no tracking, no insurance)

USPS Priority Mail International (1-2 weeks, tracking included, insured)

Please be advised that we would prefer to ship Priority Mail because of the tracking and insurance, but we are providing the First Class mail option due to the high international shipping costs. If you choose USPS First Class International we at Hydra Head Records can not be held responsible for lost, damaged or missing packages.

All international shipments are marked as "Other" and may be subject to duties and taxes upon arrival
